

IC-LINK™ Controller

The IC-LINK™ Controller is a user/control interface between the underwater camera inspection equipment and a monitor (not included) via HDMI cable. The IC-LINK™ controller allows the user to control the underwater inspection equipment as well as view video. The joystick allows camera control such as zoom, focus, and exposure; dual light command functions along with control of ROS pan & tilt units. The IC-LINK™ is not compatible with legacy CE-X cameras from ROS.

Power input	115-120 VAC, 50/60 Hz
Power rating	500 Watts MAX
Control Interface	USB Joystick
Compatibility	New ROS CEX-HD Camera, Legacy Pan & Tilts, MV-LED Lights (L200)
Features	HDMI Output, Self Diagnostics
